

# Beyond Patrol

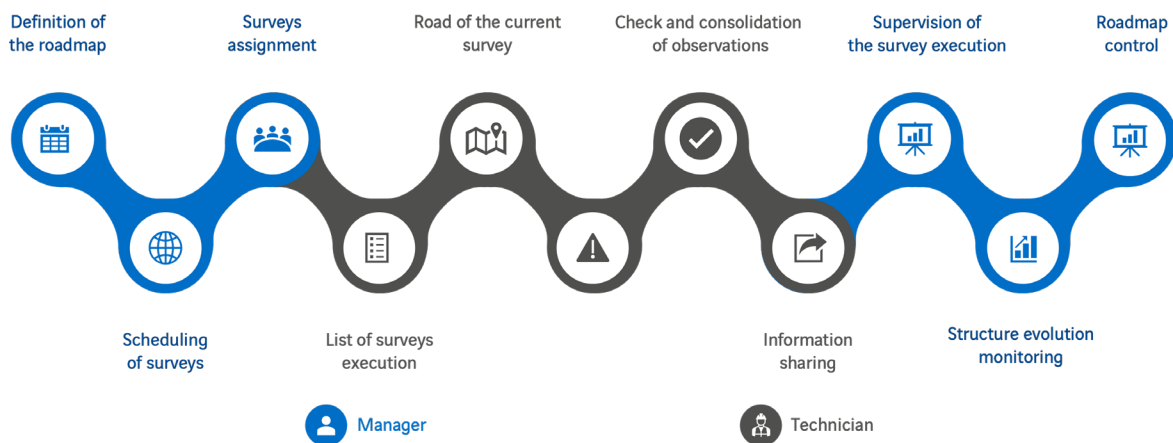

Contribute to the assessment of structure by identifying and tracking observations

## YOUR CHALLENGES

- Optimising the **use of project means and resources**
- Identify all the structures in a **central database**
- Guarantee the **compliance** of the surveillance policy
- Ensure **monitoring** and **safety** throughout the life of the infrastructure
- Harmonise **inspection procedures**
- **Secure data** throughout the life of the project

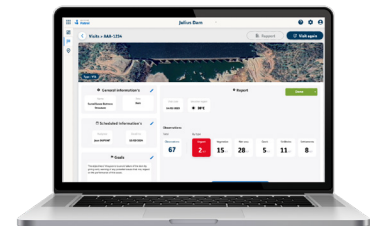

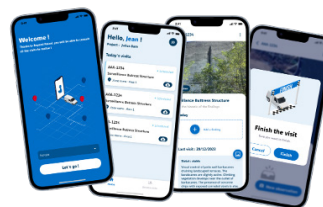

## OUR SOLUTION

## THE BENEFITS

- **Cooperation** between the various stakeholders of the project
- Monitoring the **progress of observations**
- Data **security**
- **Standardisation** of inspections
- **Productivity** improvement
- **Easy and intuitive** to use

## Sixense's

- Fully automated project creation
- Solution adapted to client ecosystem

- Expertise in construction, infrastructure management and digital
